SUMMARY

A software engineer with more than 5 years of experience working remotely with both startups and big corporations such as Mobileum, Onsolve, OurSky, etc. Experienced in distributed data pipeline, fullstack web development using Python, Javascript. I am currently seeking a role that allows me to leverage my skills in Big Data, MLOPS, and ETL to build impactful technology.

EXPERIENCE

Mobileum — Dec 2020 – Dec 2023
Software Engineer, Data Pipeline Development — *HCMC, Vietnam (Remote)*

- Built a new data pipeline contributing to the prediction and analysis of users' subscription rates.
- Maintained and optimized existing distributed batch data pipelines, which handle approximately 4 terabytes per day of telecom user traffic.
- Set up a new Python project that aligns with the company's standards of GNU Automake and RPM.
- Contributed to the process of ideation, business analysis, and system design, ensuring that the system met the requirements and needs of stakeholders.

Oursky — Oct 2019 – Nov 2020
Fullstack Web Developer — *HCMC, Vietnam (Remote)*

- Contributed to setup and build new web application using Python and Reactjs from scratch.
- Built and deployed application on AWS instance using Docker, Kurbernetes.

Onsolve — Oct 2018 – Sep 2019
Software Engineer — *HCMC, Vietnam*

- Maintained and improved the company's CMS written in Python, PHP.
- Contributed to the process of discussion, communication between the US and Vietnam's office.

Prudential — Aug 2016 – Dec 2017
Bancassurance Sales Manager — *HCMC, Vietnam*

- Led sales team of 4 members to meet KPIs quarterly.
- Organized and conducted product training sessions to help sales members improve skills.

PROJECTS

Banatica — tuidoc.com/banatica

- A real-time analytics dashboard for Binance that outputs trade signals based on the distribution of metrics.

Discover Lam By AI — tuidoc.com/discover-lam

- A proxy chatbox to ChatGPT which uses my resume as a based knowledge to answer questions about me.

EDUCATION

B.A. in International Business Economics — Aug 2012 – April 2016
Foreign Trade University — *HCMC, Vietnam*
